

Step	URL	Picture
Login to SumoLogic	Login-As-Admin-User	 The image shows the SumoLogic Home page. At the top, there's a navigation bar with 'Home', 'Learn', and 'Certification' tabs. Below the navigation bar, a welcome message says 'Hello, Wayne!'. There are three icons: 'Log Search', 'Live Tail', and 'Setup Wizard'. In the center, a large circle with a plus sign contains the text 'Your Home Page is Empty'. Below this, it says 'Turn on some panels to fill the page with the content you find most useful.'
Navigate to Connections	Manage Data → Settings → Connections	 The image shows the 'Connections' page in the SumoLogic settings. It has a search bar labeled 'Search Connections' and a table with columns 'TYPE', 'NAME', and 'DESCRIPTION'. The table is currently empty.
Click “+” to Add		 The image shows a 'Select Connection Type' dialog box. It contains a grid of icons for various services: AWS Lambda, Azure Functions, Datadog, HipChat, New Relic, PagerDuty, Service Now, Slack, and Webhook. There is a 'Cancel' button at the bottom right.
Fill in Data	Name: Add name URL: IMPORTANT!!! Add URL from Slack Step	 The image shows the 'Create Slack Connection' form. It includes fields for 'Name', 'Description (optional)', 'URL' (with an example: https://hooks.slack.com/services/T1234567/B1234567890), 'Custom Headers (optional)' (with a hint: X-API-Key: abcdef12345, Content-Type: application/json), and a 'Payload' section with a JSON template. A 'Test Connection' button is at the bottom.
Test Connection	Should be Green: 200	Then Save Connection
Navigate to Build new Query	If no Sources, use _view=sumologic_activity	_view=* json field=_raw "user_activity" nodrop count by user_activity
